## 9 – Benefit to TAFISA

Please provide any information to outline additional benefits to TAFISA due to the election of the candidate. Prof. Daniela Dasheva is researcher and university lecturer with a broad scope of scientific interests. Her core scientific field is focused on the theory of sports preparation with an accent on elite sportsmen. Prof. Dasheva has more than 450 scientific articles on this topic. She has presented her original and deep research concepts to international audience during scientific conferences on almost all continents. Prof. Dasheva is an excellent international lecturer whether working with students in international programs or delivering lectures to professional coaches and sports specialists in Europe, Latin America, North Africa and Asia. Due to her active, fruitful and successful team work prof. Dasheva is being invited to different national and international working groups for solving political and methodological problems of sport organization and contents. Besides her academic interests and achievements prof. Dasheva devotes huge energy and efforts to social governing and leadership. She is one of the first academic leaders at the university to initiate and implement European projects work with the opening of European programs to Bulgarian education institutions. Prof. Daniela Dasheva has lead more than 15 large international projects. In project implementation she participates at both management and expert/research stages. Prof. Dasheva has considered her participation in European projects as a valuable chance to constantly making experiments and finding solutions to the most demanding problems stemming from her professional and social environment. In her capacity as vice rector for European integration and international relations at the National Sports Academy of Sofia prof. Dasheva has developed a large network of partner institutions for both student and teacher mobility and academic cooperation. The internationalization activities conducted under prof. Dasheva's leadership head the university to the most attractive and up-to-date stages of European higher education and research areas.
