Budapest, 24 May, 2022

Dear Mr. President,

On behalf of the International Teqball Federation (FITEQ), I would like to draw your kind attention to the candidacy of Mr. Gergely (Greg) Murányi, Head of Diplomatic Relations of FITEQ to a seat on the TAFISA Board of Directors open for TAFISA International Members.

FITEQ strives to be a leading sport governing body to promote “sport for all” in our 140 National Teqball Federations and for our more than 8 million followers on social media. In this regard, we pay special attention to the least developed countries, as well as conflict-ridden countries. I am convinced that sport is a strong tool for development and peace, as well as for health and leisure. I strongly believe that sport and physical activity can fight global problems. Mr. Greg Murányi is responsible for our global programs and he spares no effort to coordinate and work together with our partners, member states to identify ways and means to draw more people including youth to sport. Allow me to add that Greg is negotiating our partnership agreements with the United Nations and in this regard, he has good working contacts with many international organizations at leadership and change-maker level which he could also put to the service of TAFISA to multiply the impact of your outreach.

As you recall Mr. President, we have met in Thailand and had a discussion on sport development issues. Your friend of many years, former President of Hungary Mr. Pál Schmitt advised us to become member at TAFISA and indeed, we took his advice. It was one of FITEQ’s best decisions to join your organization as it has an indispensable role in shaping our future.

Looking forward to working with you more closely,

Yours sincerely,

**Viktor Huszár**  
Chairman  
(Co-Founder)
